# About Face

## Indulge yourself with a facial at **SOLEIL BEAUTY AND SPA**

By Rebecca Ragain

A mist of lavender-scented steam envelopes your face and neck, hydrating your skin and making you feel warm and relaxed as you listen to the soft music playing in the background. You are required to do nothing but let your skin soak up the moisture. A perfect respite from life's roller-coaster.

This is just one phase of the Signature Facial with Aromatherapy at SOLEIL BEAUTY AND SPA.

Before the facial begins, the aesthetician makes sure you are comfortably settled. Hate having your feet covered? They'll roll up the bottom of the blanket. Does your back feel strained? They'll get you a pillow.

Once you are tucked in, the aesthetician gently cleanses your face with a soothing cream, removing dirt and makeup. Then a gentle exfoliation takes place, sloughing away dead skin and impurities. After exfoliation, steam is wafted over your face and

neck, hydrating the skin in preparation for deep cleansing. Fifteen minutes pass quickly in this quiet dampness.

The aesthetician moves on to extraction, the process of removing stubborn blackheads and whiteheads.

Then a rub with oil returns the skin to its natural PH - and it feels wonderful, too.

A cleansing mask is chosen especially for your skin type by the aesthetician. As the mask works its magic, she will massage your scalp and neck. After the mask is removed, the facial concludes with a renewing lotion and a light coat of sunscreen.

With life as hectic as it is, we should take our moments of pampering very seriously. At SOLEIL BEAUTY AND SPA, they recognize the value of "me-time," and pay special attention to each and every client.

### THREADING

SOLEIL BEAUTY AND SPA is famous for brows. In addition to waxing, both Soheila and Firouzeh are experts at threading, a facial hair removal technique that has been a regular beauty routine for thousands of years in the Middle East and Asia.

This ancient cultural technique, in which long strands of thread are twisted around unwanted hairs to pull them out by the roots, is used for complete, detailed hair removal. The procedure is nearly painless, and is ideal for people who have sensitive skin or severe acne, or for those who are allergic to waxing.
